

Agricultural Environmental Services

LEI works with farmers who strive for excellence. We help to turn challenging waste and land management issues into sustainable long-term solutions that are right for your farm.

As a specialist science and environmental team, including Certified Nutrient Management Advisors, LEI provides nationwide agricultural environmental services. Our team can help resolve the challenges surrounding land and nutrient management plans, irrigation, wastewater management, resource consent applications and technical reporting.

We look to do the right work at the right time to manage expenditure, risks and timelines; leaving you with time to do the stuff on farm that really matters!

Contact us to find out more about how LEI can help you. We can scope what is required and provide you with a proposal for your project.

Land Management Mapping

Managing land in an efficient and sustainable way requires strategic planning. We can work with you to provide:

Nutrient Management

- OVERSEER® nutrient budget modelling
- Environmental Farm Plans/ Nutrient Management Plans & audits
- Independent soil fertility tests and recommendations
- Land use consent to farm

Agricultural Wastewater Management

- Wastewater discharge options
- Farm dairy effluent evaluation, design and management
- Intensive livestock waste management
- Water monitoring
- Irrigation and storage solutions

Irrigation and Water Supplies

- Communal irrigation schemes
- System and scheme development
- System evaluation
- Water supply investigations
- Surface and groundwater consents

Management Systems

- Project management
- Strategic development planning and risk management
- Options analysis
- Farming system and nutrient management advice

Land Management

- Soil mapping, testing and sampling
- Nutrient status
- Drainage assessments (soil moisture, infiltration rates)
- Nutrient Management/ Land Management Plans

Consultation & Industry Assistance

- Resource Consent application preparation
- Plan and consent submissions
- Due diligence – pre-purchase checks
- Community consultation
- Dairy NZ effluent and irrigation design accreditation reviews
